## About SOTHEMA

SOTHEMA was formed in 1976 and is a Moroccan leading pharmaceutical laboratories. It is privately-held company specializing in the manufacture, the sales & marketing of effective high-quality generic and brand pharmaceutical products.

SOTHEMA is certified by many eminent International agencies. With global presence, the company products have achieved notoriety in Morocco and abroad.

## Why SOTHEMA

SOTHEMA is a pharmaceutical company focused on improving the lives of patients through the manufacturing and commercialization of Specialty Pharmaceuticals and Branded generic products.

SOTHEMA is creating innovative generic products by improving and expanding the use of known compounds, and aggressively adding to our pharmaceutical portfolio through development, licensing, acquisitions, and collaborations.

## Business Development

SOTHEMA is a global pharmaceutical company operating in over 30 countries worldwide. Our strategy is to expand our presence in the global map with the support of enhanced marketing and promotional system.

As of today, we operate in a variety of geographical locations throughout Europe, the Arab countries and sub-Saharan Africa.

Sothema will become more international in the coming years by pursuing a steady growth of its international subsidiaries

## Our Products

We, at SOTHEMA, bank on the strength of our products range. Not only are they known for their quality and efficacy, They are also our means of achieving our end purpose of helping people lead healthier lives.

Certainly our various specialized product lines designed as per GMP requirements, our production capacity and our strict implementation of the international quality standards enable us to meet the need for manufacturing many complex therapeutic medications of some national and multinational laboratories.
